### Some of Our Sponsors

## About Us

The Sarasota Web Developer Group is dedicated to teaching real-world development skills in ASP.NET 4 as well as ASP.NET MVC 2 from scratch. Monthly meetings build upon one another, increasing the skills and confidence of each member in both ASP.NET 4 and ASP.NET MVC each month. In addition to presentations, the group also enjoys

- ❖ Monthly newsletter filled with resources and links.
- ❖ Monthly screencasts that provide a quick summary of material presented.
- ❖ Optional monthly homework assignments that challenge members.
- ❖ A Windows Live Group to ask questions and share knowledge.
- ❖ Wonderful sponsors that make all of this fun and possible!

In addition to a minimum of 2 monthly presentations that build member skills in ASP.NET 4 and ASP.NET MVC 2 is a monthly tool spotlight that showcases a valuable .NET Developer Tool to help with productivity and/or code quality.

The group takes pride in not just teaching in-depth skills in ASP.NET 4 and ASP.NET MVC 2 but also in teaching proven-practices and exposing members to a wide variety of technologies and solutions. Presentations and homework will challenge members by exposing them to a wide variety of Microsoft, 3<sup>rd</sup> party, as well as OSS technologies.

## Sponsors and Presenters

If you would like to sponsor the Sarasota Web Developer Group or present at one of our meetings, please contact David Hayden at <http://www.davidhayden.com/>.
